

1 LOCATION OF WATER WELL:		Fraction	Section Number	Township Number	Range Number																																																																																				
County: <b>GRAY</b>		$\frac{1}{4}$ $\frac{1}{4}$ <b>SE/4</b> $\frac{1}{4}$	<b>15</b>	<b>T 28 S</b>	<b>R 29W</b> <b>E/W</b>																																																																																				
Distance and direction from nearest town or city street address of well if located within city? <b>FROM MONTEZUMA: 7 N, 1.5 W, E N INTO LOC.</b>																																																																																									
2 WATER WELL OWNER: <b>MINTER-WILSON DRILLING CO.</b>		<b>Orville Williams</b>																																																																																							
RR#, St. Address, Box # : <b>P.O. BOX 669</b>		Board of Agriculture, Division of Water Resources																																																																																							
City, State, ZIP Code : <b>ULYSSES, KS 67880</b>		Application Number:																																																																																							
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL: <b>230</b> ft. ELEVATION:																																																																																							
		Depth(s) Groundwater Encountered 1. .... ft. 2. .... ft. 3. .... ft.																																																																																							
		WELL'S STATIC WATER LEVEL .... ft. below land surface measured on mo/day/yr <b>07-19-95</b>																																																																																							
		Pump test data: Well water was .... ft. after <b>1</b> hours pumping .... gpm																																																																																							
		Est. Yield .... gpm: Well water was .... ft. after .... hours pumping .... gpm																																																																																							
Bore Hole Diameter: <b>11</b> in. to <b>230</b> ft., and .... in. to .... ft.		WELL WATER TO BE USED AS:																																																																																							
1 Domestic		3 Feedlot	6 Oil field water supply	9 Dewatering	12 Other (Specify below)																																																																																				
2 Irrigation		4 Industrial	7 Lawn and garden only	10 Monitoring well																																																																																					
Was a chemical/bacteriological sample submitted to Department? Yes.....No... <b>X</b> .....; If yes, mo/day/yr sample was submitted																																																																																									
Water Well Disinfected? Yes <b>X</b> No																																																																																									
5 TYPE OF BLANK CASING USED:																																																																																									
1 Steel		3 RMP (SR)	5 Wrought iron	8 Concrete tile	CASING JOINTS: Glued <b>X</b> Clamped																																																																																				
2 PVC		4 ABS	6 Asbestos-Cement	9 Other (specify below)	Welded																																																																																				
			7 Fiberglass		Threaded																																																																																				
Blank casing diameter .... <b>6</b> in. to <b>230</b> ft., Dia. .... in. to .... ft., Dia. .... in. to .... ft.																																																																																									
Casing height above land surface: <b>24</b> in., weight <b>2.902</b> lbs./ft. Wall thickness or gauge No. <b>.280 SDR 21</b>																																																																																									
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																																									
1 Steel		3 Stainless steel	5 Fiberglass	8 RMP (SR)	10 Asbestos-cement																																																																																				
2 Brass		4 Galvanized steel	6 Concrete tile	9 ABS	11 Other (specify)																																																																																				
					12 None used (open hole)																																																																																				
SCREEN OR PERFORATION OPENINGS ARE:																																																																																									
1 Continuous slot		3 Mill slot	5 Gauzed wrapped	8 Saw cut	11 None (open hole)																																																																																				
2 Louvered shutter		4 Key punched	6 Wire wrapped	9 Drilled holes																																																																																					
			7 Torch cut	10 Other (specify)																																																																																					
SCREEN-PERFORATED INTERVALS: From <b>170</b> ft. to <b>230</b> ft., From .... ft. to .... ft.																																																																																									
GRAVEL PACK INTERVALS: From <b>150</b> ft. to <b>230</b> ft., From .... ft. to .... ft.																																																																																									
6 GROUT MATERIAL: 1 Neat cement 2 Cement grout 3 Bentonite 4 Other <b>HOLE PLUG</b>																																																																																									
Grout Intervals: From <b>0</b> ft. to <b>16</b> ft., From .... ft. to .... ft., From .... ft. to .... ft.																																																																																									
What is the nearest source of possible contamination:																																																																																									
1 Septic tank		4 Lateral lines	7 Pit privy	10 Livestock pens	14 Abandoned water well																																																																																				
2 Sewer lines		5 Cess pool	8 Sewage lagoon	11 Fuel storage	15 Oil well/Gas well																																																																																				
3 Watertight sewer lines		6 Seepage pit	9 Feedyard	12 Fertilizer storage	16 Other (specify below)																																																																																				
				13 Insecticide storage																																																																																					
Direction from well? How many feet?
