Assignment of Water Well to Landowner
N/2 -NW 13-29-24W
Ford Co., Kansas

Dear Mr. Harper:

Enclosed for your files are a number of documents relative to the above referenced water well which was drilled by Rosencrantz-Bemis (KWWCL#134) on behalf of Vincent Oil Corporation.
The well was drilled in November of 2010 as a water supply well for an oil well drilling operation.

The landowner of the property on which the well is located has elected to assume responsibility for the water well under existing Kansas law and / or regulation.

Towards that end I have attached the following for your records:

1. A copy of the Water Well Record (Form WWC-5)
2. A copy of the Water Appropriation - Temporary Permit # 20100464
3. A signed original Assignment of Water Well to Landowner (KDHW Form WWC-7)

After reviewing the enclosed documentation should you have any questions or require additional information to complete this transfer please contact me at your earliest convenience. I can be reached at the address and or telephone number shown in the above letterhead.

Sincerely,

M.L. Korphage, P.G.
Geologist

RE: Temporary Permit
File No. 20100464

Dear Sir or Madam:

Your application for temporary permit to appropriate water for beneficial use has been examined, approved, and is being returned herewith for your records.

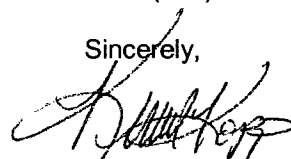

The approval of your application constitutes a temporary permit to appropriate water for beneficial use, as set forth in the application. This permit does not give authority to any right-of-way, or authorize injury to, or trespass upon public or private property, does not constitute authority under K.S.A. 82a 301 through 305 to construct any dam or other obstruction; nor does it obviate the necessity of assent from Federal or Local Governmental authorities, when necessary. Records must be maintained from which the quantity of water actually diverted may be readily determined.

Upon abandonment of the authorized well(s) for the authorized use, and/or dismissal or expiration of this temporary permit, the well(s) must be plugged in accordance with the requirements of Article 30 of the Rules and Regulations as adopted by the Kansas Department of Health and Environment (KDHE). If the well is to be retained by the landowner for other purposes after the expiration, the well(s) must initially be properly constructed by the well driller to comply with Article 30 of the Rules and Regulations as adopted by KDHE. Upon transfer of responsibility for maintenance of the well, a copy of the legal transfer must be forwarded to KDHE Geology Section, 1000 SW Jackson, Suite 420, Topeka, Kansas, 66612-1364, telephone (785) 296-5524.

K.S.A. 82a-728 sets forth, in essence, that it is unlawful to divert or threaten to divert water for the type use you propose without first acquiring approval of the Chief Engineer of the Division of Water Resources. K.S.A. 82a-737 sets forth that violation of the Kansas Water Appropriation Act, any adopted rule or regulation, or any order of the Chief Engineer, may be subject to a civil penalty of up to \$1000, per violation. Each day that any such violation occurs can be considered a separate offense.

If you have any questions, please contact our office at (785) 296-3717.

Sincerely,

Kenneth A. Kopp, L.G.

CONDITIONS OF APPROVAL:

The applicant shall maintain records from which the quantity of water actually diverted may be readily determined.

The use of water herein authorized shall not be made so as to impair any use under existing water rights or prejudicially and unreasonably affect the public interest.

K.S.A. 82a-728 states in part "(a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water . . ."

Well(s) must be properly constructed by the well driller to comply with Article 30 of the Rules and Regulations as adopted by the Kansas Department of Health and Environment.

The Chief Engineer specifically retains jurisdiction in this matter with authority to make such reasonable reductions in the approved rate of diversion and quantity authorized, and such changes in other terms, conditions, and limitations set forth in this approval and permit to proceed as may be deemed to be in the public interest.
