Mr. Rinehart,

Your proposal to plug the water well by not cutting the casing off three feet below grade is hereby approved. Please submit a copy of this e-mail and attach it to the Water Well Record (WWC-5 Form) that is required after the well is plugged.

Dear Mr. Nichols and Mr. Harper:

The City of Sublette would like permission from you, stating that

it is ok for the City of Sublette to plug the old Cain Well that caved

in.

Refer to pictures.

Our plan is to break out the concrete pedestal around the casing

down to be flush with the slab, then cut off the casing and column pipe, then fill the casing and column pipe with concrete.

Sincerely,

Stanley Rinehart

City Superintendent
