

1 LOCATION OF WATER WELL:		Fraction	Section Number	Township Number	Range Number																																																																		
County: Comanche		$\frac{1}{4}$ $\frac{1}{4}$ SE$\frac{1}{4}$	19	T 32 S	R 18 EW																																																																		
Distance and direction from nearest town or city street address of well if located within city? 2 miles south, 5 miles east of Coldwater, Kansas on Highway 183																																																																							
2 WATER WELL OWNER: Comanche County RR#, St. Address, Box #: Box 776 City, State, ZIP Code: Coldwater, Ks. Board of Agriculture, Division of Water Resources Application Number:																																																																							
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL: 70 ft. ELEVATION: NA																																																																					
		Depth(s) Groundwater Encountered 1. 62 ft. 2. ft. 3. ft.																																																																					
		WELL'S STATIC WATER LEVEL ft. below land surface measured on mo/day/yr																																																																					
		Pump test data: Well water was ft. after hours pumping gpm																																																																					
		Est. Yield gpm: Well water was ft. after hours pumping gpm																																																																					
		Bore Hole Diameter: .8 in. to .70 ft., and in. to ft.																																																																					
		WELL WATER TO BE USED AS:																																																																					
		5 Public water supply 8 Air conditioning 11 Injection well 1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below) 2 Irrigation 4 Industrial 7 Lawn and garden only 10 Monitoring well																																																																					
		Was a chemical/bacteriological sample submitted to Department? Yes.....No..X.....; If yes, mo/day/yr sample was submitted																																																																					
		Water Well Disinfected? Yes No X																																																																					
5 TYPE OF BLANK CASING USED:																																																																							
1 Steel 3 RMP (SR) 5 Wrought iron 8 Concrete tile CASING JOINTS: Glued Clamped 2 PVC 4 ABS 6 Asbestos-Cement 9 Other (specify below) Welded 7 Fiberglass Threaded. X																																																																							
Blank casing diameter 2 in. to .55 ft., Dia. in. to ft., Dia. in. to ft.																																																																							
Casing height above land surface 24 in., weight lbs./ft. Wall thickness or gauge No. sch. 40																																																																							
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																																							
1 Steel 3 Stainless steel 5 Fiberglass 7 PVC 10 Asbestos-cement 2 Brass 4 Galvanized steel 6 Concrete tile 8 RMP (SR) 11 Other (specify) 9 ABS 12 None used (open hole)																																																																							
SCREEN OR PERFORATION OPENINGS ARE:																																																																							
1 Continuous slot 3 Mill slot .010 5 Gauzed wrapped 8 Saw cut 11 None (open hole) 2 Louvered shutter 4 Key punched 6 Wire wrapped 9 Drilled holes 7 Torch cut 10 Other (specify)																																																																							
SCREEN-PERFORATED INTERVALS: From 70 ft. to 55 ft., From ft. to ft.																																																																							
GRAVEL PACK INTERVALS: From 70 ft. to 50 ft., From ft. to ft.																																																																							
6 GROUT MATERIAL: 1 Neat cement 2 Cement grout 3 Bentonite 4 Other																																																																							
Grout Intervals: From 50 ft. to 46(ben) ft., From 46 ft. to 0(cem) ft., From ft. to ft.																																																																							
What is the nearest source of possible contamination:																																																																							
1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well 2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well 3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below) 13 Insecticide storage landfill																																																																							
Direction from well? How many feet?
