

1 LOCATION OF WATER WELL:		Fraction	Section Number	Township Number	Range Number																																																						
County: Meade		C 1/4 SW 1/4 NW 1/4	3	T 33 S	R 27 EW																																																						
Distance and direction from nearest town or city street address of well if located within city? From Meade, KS: 5 S, 5 E, 1/2 S and E into--																																																											
2 WATER WELL OWNER: H-30 Drilling																																																											
RR#, St. Address, Box # : 251 N Water, #10																																																											
City, State, ZIP Code : Wichita, KS 67202																																																											
Board of Agriculture, Division of Water Resources Application Number: 900039																																																											
3 LOCATE WELL'S LOCATION WITH AN "X" IN SECTION BOX:		4 DEPTH OF COMPLETED WELL: 220 ft. ELEVATION:																																																									
<div style="text-align: center;">N 1 Mile W E S</div> 		Depth(s) Groundwater Encountered 1. 50 ft. 2. ft. 3. ft.																																																									
		WELL'S STATIC WATER LEVEL 50 ft. below land surface measured on mo/day/yr 01-03-90																																																									
		Pump test data: Well water was 52 ft. after 1 hours pumping 120 gpm																																																									
		Est. Yield 120 gpm: Well water was ft. after hours pumping gpm																																																									
Bore Hole Diameter 9 1/2 in. to 220 ft. and in. to ft.		WELL WATER TO BE USED AS:																																																									
1 Domestic 3 Feedlot 6 Oil field water supply 9 Dewatering 12 Other (Specify below)		5 Public water supply 8 Air conditioning 11 Injection well																																																									
2 Irrigation 4 Industrial 7 Lawn and garden only 10 Observation well																																																											
Was a chemical/bacteriological sample submitted to Department? Yes.....No.....X.....; If yes, mo/day/yr sample was submitted																																																											
Water Well Disinfected? Yes X No																																																											
5 TYPE OF BLANK CASING USED:																																																											
1 Steel 3 RMP (SR) 6 Asbestos-Cement 9 Other (specify below) CASING JOINTS: Glued X Clamped																																																											
2 PVC 4 ABS 7 Fiberglass Welded																																																											
Blank casing diameter 5 in. to 220 ft. Dia in. to ft. Dia in. to ft.																																																											
Casing height above land surface 24 in., weight lbs./ft. Wall thickness or gauge No. 032																																																											
TYPE OF SCREEN OR PERFORATION MATERIAL:																																																											
1 Steel 3 Stainless steel 5 Fiberglass 8 RMP (SR) 10 Asbestos-cement																																																											
2 Brass 4 Galvanized steel 6 Concrete tile 9 ABS 11 Other (specify)																																																											
12 None used (open hole)																																																											
SCREEN OR PERFORATION OPENINGS ARE:																																																											
1 Continuous slot 3 Mill slot 5 Gauzed wrapped 8 Saw cut 11 None (open hole)																																																											
2 Louvered shutter 4 Key punched 6 Wire wrapped 9 Drilled holes																																																											
7 Torch cut 10 Other (specify)																																																											
SCREEN-PERFORATED INTERVALS: From 160 ft. to 220 ft. From ft. to ft.																																																											
GRAVEL PACK INTERVALS: From 60 ft. to 220 ft. From ft. to ft.																																																											
6 GROUT MATERIAL: 1 Neat cement 2 Cement grout 3 Bentonite 4 Other dirt																																																											
Grout Intervals: From 1 ft. to 20 ft. From ft. to ft. From ft. to ft.																																																											
What is the nearest source of possible contamination:																																																											
1 Septic tank 4 Lateral lines 7 Pit privy 10 Livestock pens 14 Abandoned water well																																																											
2 Sewer lines 5 Cess pool 8 Sewage lagoon 11 Fuel storage 15 Oil well/Gas well																																																											
3 Watertight sewer lines 6 Seepage pit 9 Feedyard 12 Fertilizer storage 16 Other (specify below)																																																											
13 Insecticide storage																																																											
Direction from well? Southeast How many feet? 100
